ABOUT

I am 26 years old and I entered the job market in 2018, working in the construction sector as a Civil Engineering intern. In 2020 I decided to migrate my career to software development, where I have been working ever since.

I am a Information Technology student and I have been working in this area for 2 years and 8 months, focusing on Backend using the C# .NET language. Currently, I work as a Mid-level Fullstack Developer, using technologies such as .NET (Core 3.1 and 6) and Angular (8 and 12). In addition, I also have experience in other technologies such as .NET Framework 4.7, ASP.NET MVC, databases in SQL Server, MySql and Redis, Unit Tests, Microservices Architecture, Kubernetes, Docker and Messaging.

Besides my main focus, I also have interest and study other technologies, such as application development with React Native and cloud computing platforms, more specifically Microsoft Azure.

LANGUAGES

Portuguese - Fluent
Native (Brazilian)

English - B2 Upper Intermediate
Certification by **EF STANDARD ENGLISH TEST**: www.efset.org/cert/PqJZmk

EDUCATION

Graduating in Information Technology

FACULDADE CDL - Fortaleza, Ceará, Brazil

PROFESSIONAL EXPERIENCES

August 2021 - Today
Mid-level Fullstack Developer

LABSIT (Allocated in the company **DOTZ INC.**)

Technologies: C#, .NET Core 3.1 e .NET 6, Angular (8 e 12), ASP.NET, .NET Framework, MySQL, SQL Server, Redis, APIs Rest, Microservices, Google Cloud Platform (GCP), Messaging (Pub/Sub) and Unit Tests.

Attributions:
- Development of new functionalities in diverse projects, bug fixes and short implementations;
- Working in support team, investigating and diagnosing errors in production;
- Creating and monitoring change management in production;
- Elaborate documentation for orientation and for new deliveries;
- Code reviews, providing constructive feedback to teammates;
- Development and maintenance of APIs, Workers and Consumers for system and service integration;
- Participation in the planning process of new projects, helping with the technical definitions.

April 2021 - August 2021
Junior Backend Developer

FITBANK

Technologies: C#, .NET Framework, ASP.NET (MVC), Xamarin, JavaScript, SQL Server, APIs and Workers.

Attributions:
- Development of new features, bug fixes and short implementations;
- Code reviews, providing constructive feedback to teammates;
- Maintenance of APIs and Workers for system improvement and elaborate documentation for orientation.

November 2020 - April 2021
QA Intern

FITBANK

Technologies: Manual testing, Postman and SQL Server.

Attributions:
- Manual testing on APIs, Workers and UI Admin;
- Documentation of tests and detailing of software flows;
- Collaboration with the development team, providing feedback on software quality.

CERTIFICATIONS

Azure Fundamentals (AZ-900)

MICROSOFT

Resume: Proves knowledge of cloud computing concepts, models and services, such as public, private and hybrid cloud, as well as IaaS (infrastructure as a service), PaaS (platform as a service) and SaaS (software as a service)..

Azure Developer Associate (AZ-204)

MICROSOFT

Resume: Proves the skills and knowledge to design, build, test and maintain cloud applications and services on Microsoft Azure. Candidates participate in all phases of cloud development, from requirements definition and design to development, deployment and maintenance..

OTHER INFORMATIONS

- I have developed a professional page (portfolio) where I present a summary of my career, list knowledge and expose personal projects. Access at: https://www.matheusassis.dev/

- I am publishing articles on Medium about technical issues and problems I solved during the development of my personal projects. Access at: https://www.medium.com/@assis4002

- About my studies, besides I am graduating, I have completed courses about C#, .NET, Frontend, Cloud and other topics on various platforms, mostly on **Udemy** and **Desenvolvedor.io**. For more information of the courses completed, visit my website: https:/www.matheusassis.dev/courses
